

Data Analysis | Data Science | Data Visualization | Data Automation | Data Modeling | Data Storytelling

- Dynamic Data Analyst with over 2 years of experience specializing in **data analysis, real estate analytics, and supply chain logistics optimization**.
- Experienced in collaborating with both **real estate project** teams and **logistics operations** to understand business needs, design customized solutions, and deliver value-added insights that foster growth and operational efficiency.
- Proficient in extracting actionable insights from complex datasets using **Python, SQL, Power BI, and Excel**, enabling data-driven decision-making across various industries.
- optimization strategies for both real estate project management (sales performance, marketing spend allocation, collections analysis) and logistics operations (route planning, last-mile logistics, and performance analysis).
- Skilled in **data visualization** with tools like **Power BI** and **Tableau**, presenting complex datasets in a clear, actionable format for stakeholders.
- Strong track record of collaborating with cross-functional teams to deliver data-driven solutions that enhance business performance and drive strategic initiatives, particularly in marketing and sales operations in real estate and logistics efficiency.

TECHNICAL SKILLS

Excel (Advanced Functions) | Power BI (DAX) | Python (Pandas, NumPy) | MySQL | Google Sheet | Power Point | Tableau

PROFESSIONAL SKILLS

Data Visualization | Data Cleaning | Database Management | Analytical thinking | Team Player | Adaptability

WORK EXPERIENCE

Data Analyst (Assistant Manager) – MIS| Casagrand Builders Pvt Ltd, Chennai | Feb’24 - Present

Data Management and SQL-Based Extraction:

- Collect, process, and maintain large datasets related to projects, sales, and marketing.
- Extract, clean, and process data directly from databases using optimized SQL queries to ensure accurate and efficient analysis.

Data Analysis, Reporting and Dashboard Creation:

- Design and maintain dynamic Power BI dashboards for key metrics, including project progress, sales vs targets, marketing spend, and collection performance.
- Provide drill-down analysis for region-wise, project-wise, and team-wise insights, enabling data-driven decision-making.
- Create customized dashboards and ad-hoc reports for management, tailored to specific business objectives.

Performance and Feasibility Analysis:

- Evaluate sales metrics like lead conversion rates, agent performance, and regional trends to support sales and marketing strategies.
- Conduct feasibility studies for new projects by analyzing demand-supply trends and competitive market data.
- Develop and analyze Key Performance Indicators (KPIs) to measure performance and identify variances from established targets for actionable insights.

Strategic Insights and Support:

- Key Performance Indicators (KPIs) to track and improve project and team performance.
- Conduct feasibility studies for new projects by analyzing demand-supply trends and competitive market data.

Project Monitoring and Progress Reporting:

- Track key project milestones, unsold inventory, and budget adherence through automated tools.
- Prepare detailed reports on project progress, timelines, and collection performance.

Automation and Process Optimization:

- Automate repetitive tasks such as data imports, cleaning, and report generation to enhance operational efficiency.
- Develop SQL-based solutions to support dynamic reporting needs and faster data transformation.

Data Analyst (Asst Manager) – SCM Logistics | Waycool Foods & Products, Chennai | Aug'22 to Feb'24

Data Collection and Maintenance:

- Collected data from 25 distribution centers (PAN India).
- Maintained data for Annual Business Planning and ad-hoc problem analysis.

Dashboard Creation and Visualization:

- Dashboard creation for various F&L parameters (F&L Primary metrics Dashboard, Sale Return Analytics Dashboard, Logistics Dashboard, Trip sheet Dashboard) - **POWER BI**
- Developed and maintained interactive dashboards in Power BI, Excel, and Google Sheets to visualize and communicate data effectively.

Data Analysis, Reporting and Dashboard Creation:

- Performed comprehensive data analysis using advanced Excel functions and formulas to provide actionable insights into logistics operations.
- Conducted spend analysis dashboards for all metrics using Power BI.

Route Planning and Optimization:

- Led the Route Planning Team for last-mile logistics, optimizing delivery routes for on-time and cost-efficient deliveries.

Plan vs. Actual Analysis:

- Played a pivotal role in Plan vs. Actual analysis, identifying variances and providing recommendations for improvement.

Reporting and Efficiency Enhancements:

- Analyzed and reported on sales and logistics data to enhance operational efficiency.

MIS Executive | Alphentrix Global Services Pvt Ltd, Chennai | Oct'21 to Jan'22

Data Management:

- Captured, processed, and retrieved customer data.
- Maintained and updated master databases to ensure accuracy and accessibility.

Dashboard Generation:

- Generated hourly dashboards to support decision-making and management oversight.
- Recognized as the top performer for planning and executing successful digital marketing campaigns.

Operational Support:

- Acknowledged Assisted field agents by providing accurate customer databases for seamless operations.

Site Engineer | Sathya Infra Pvt Ltd, Chennai | May'19 to Mar'20

Blueprint Analysis and Compliance:

- Analyzed blueprints to ensure construction projects adhered to design, safety, and budget specifications.

Project Monitoring:

- Monitored the progress of construction projects to ensure timely completion and adherence to project goals.

Process Optimization:

- Recommended changes to construction operations or procedures to improve efficiency and resource utilization.

NOTABLE ACHIEVEMENTS

- Developed an Optimal Vehicle Calculator in Microsoft Excel to enhance vehicle utilization within the logistics operations, resulting in improved Vehicle Utilization and cost savings | **MS – Excel**
- Enhanced On-Time Delivery (OTD) rates from 55% to an impressive 85% by creating a Delivery Tracking Dashboard in Power BI, facilitating day-to-day monitoring and performance tracking | **Power BI**

CERTIFICATIONS

- SQL (Advanced) Certificate 2022 - Hacker Rank - [LINK](#)
- SQL for data analysis – *UDACITY*
- Fundamentals of **DIGITAL MARKETING** 2020 – Google Certification.

PROJECTS

- **Walmart Retail Sales Analysis [US] | [Tableau Link](#) :**
 - *Analyzed Region Wise Sales, Profit, and Loss Performance, and Market Basket Purchases Patterns.
 - *Developed KPIs on Sales.

EDUCATION

- Post-Graduate Certificate Program in **Data Science & Business Analytics (PGPDSBA)** | SSN School of Advanced Career Education, Chennai | 2022
- Bachelor of Engineering (**Civil Engineering**) | DMI College of Engineering, Chennai | 2019
- Higher Secondary Education | Govt Model Higher Secondary School, Chennai | 2014
- SSLC | Chennai Higher Secondary School, Chennai | 2012
