

SEBASTIAN M

Nerkundram, Chennai 600107

Professional Summary

Skilled software tester with seven years of hands-on experience in both automation and manual software testing. Well trained in the use of Selenium WebDriver as well as on deep knowledge of different API testing methods. Enjoys working as part of a team following Agile principles. Good verbal and written communication fosters interaction with team members, partners, and other stakeholders to deliver the desired results.

Experience

Plintron Mobility Solutions Pvt Ltd.

Mar 2022 – Present

Test Engineer

Chennai

- Executed and managed testing for a Customer Engagement Platform (CEP) application, covering UI and API modules, while actively reporting bugs and tracking defects in JIRA.
- Created and validated 500+ test cases, performing Load, UI, API, and Integration Testing, and maintaining regression test suites for beta testing and defect management.
- Led QA efforts during deployments, coordinating cross-functional teams, integrating Docker into CI/CD pipelines for automated deployment, and ensuring smooth releases.
- Worked on REST API testing in Postman while collaborating with developers and stakeholders to enhance software quality, prioritize test execution, and resolve issues effectively.
- Executed System, Functional, Smoke, Interface, Positive, and Negative Testing, while also writing SQL queries to validate data flow in the database.

Infosys

Sept 2021 – Feb 2022

Test Engineer

Chennai

- Worked with the customer service team to process user requests for creating Stocks/Bonds, ensuring smooth communication and efficient handling.
- Enhanced various settlement processes, ensuring accuracy, compliance with financial regulations, and seamless execution.
- Optimized the application to improve the user experience and enhance system functionalities for a smoother workflow.
- Monitored and validated settlements, identified areas for improvement, and refined workflows for better efficiency.

Wipro HR Services India Private Limited

May 2018 – August 2021

Analyst

Chennai

- Created and Analyzed Test Cases based on requirements, ensuring comprehensive coverage, identifying gaps, and executing end-to-end scenarios in UAT.
- Conducted Knowledge Transfer & Reviews by providing requirement walkthroughs to peers, participating in team meetings, and contributing to status calls.
- Executed Testing & Defect Management by handling test case dependencies, managing defects, and preparing detailed bug reports.
- Validated System Performance & Stability by monitoring web server behavior, identifying network-related issues, and collaborating with developers to troubleshoot and optimize the enrollment system.

Projects

CEP - Customer Engagement Platform | RestAPI, Postman, Jmeter

March 2022 - Present

- Cloud-based platform enabling businesses to integrate Voice, SMS, Email, and WhatsApp for customer communication.
- Automated messaging system allowing business owners to upload contacts and send notifications for campaigns, offers, and service updates.
- Ensured system reliability by conducting API testing using Postman and load testing using JMeter in Docker.
- Ongoing enhancements to integrate additional communication modules and improve customer engagement.

- AT&T, with over 1 million employees, introduced a new approach to health benefits enrollment to address web server slowdowns and downtime during the 2021 plan year.
- During Annual Enrollment, users selecting medical benefits were redirected to a dedicated URL to reduce server load and network congestion.
- The new URL provided employees with access to all eligible medical benefit plans, ensuring a seamless enrollment experience.
- This automation was exclusive to medical benefit selections, while other benefit plans followed the standard enrollment process.

Education

Chennai Institute Of Technology**Aug. 2014 – April 2018*****Bachelor of Engineering in Computer Science CGPA 7.18******Chennai, TamilNadu*****Bharathi Matriculation Higher Secondary School****Jun. 2013 – April 2014*****Higher Secondary Education with Computer Science 79%******Chennai, TamilNadu***
